*Andrew E. Witt Appointed Interim Chief Executive Officer and President*

LOS ANGELES, February 27, 2020 – Colony Credit Real Estate, Inc. (NYSE: CLNC) (“Colony Credit Real Estate” or the “Company”) today announced its financial results for the fourth quarter and full year ended December 31, 2019. In addition, Andrew E. Witt, Managing Director and Chief Operating Officer of Global Credit at Colony Capital, Inc. Mr. Traenkle concluded, “Now that the Portfolio Bifurcation Plan is in-place and the company is well positioned for future growth, I am going to step down as CEO and President of the Company effective February 29th. I want to thank my team for the tireless work and progress made over the last several quarters.”

During the fourth quarter, the Company elected to modify its dividend policy in furtherance of its Portfolio Bifurcation Plan, to issue a monthly dividend that is fully covered by and positioned for growth based on the Company's Core Earnings on its Core Portfolio. Under the Stock Repurchase Program, the Company may repurchase shares in open market purchases, in privately negotiated transactions or otherwise. The Stock Repurchase Program will be utilized at management's discretion and in accordance with the requirements of the Securities and Exchange Commission. The timing and actual number of shares repurchased will depend on a variety of factors including price, corporate requirements and other conditions.

### **Special Committee Review Process**

On November 6, 2019, Colony Capital sent a letter to the Company's independent directors proposing to explore the possible internalization of the management of the Company and a transfer of Colony Capital's credit management business to us. The letter provided that an internalization would be subject to, among other things, the negotiation of terms and definitive documentation and approval of the Company's Board of Directors and the board of directors of Colony Capital (or an authorized committee thereof in each case). In response, the Board of Directors has formed a special committee consisting exclusively of independent and disinterested directors (the "Special Committee") to explore this internalization proposal as well as other strategic alternatives.

On February 27, 2020, Colony Capital publicly reported that it plans to take action to enter into an agreement with the Company and/or one or more third parties with respect to a disposition of Colony Capital's management agreement with the Company, subject to the Company's consent, whether in the form of an internalization of the Company's management (including, but not limited to, the possible internalization set forth in the November 6, 2019 letter), a sale of Colony Capital's management agreement with the Company, or similar transaction the effect of which is to dispose of, in whole or in part, Colony Capital's management agreement with the Company. The scope of any such transaction is focused on Colony Capital's management agreement with the Company, and not on Colony Capital's private credit investment management platform and associated private credit assets.

We can give no assurance as to whether the Company and Colony Capital will enter into an agreement with respect to the management of our investments, the terms or scope of such agreement and the timing of closing, or whether we may pursue other strategic alternatives. The Company does not undertake any obligation to provide updates with respect to the Special Committee's review process or any strategic alternatives it may consider.

### **Non-GAAP Financial Measures and Definitions**

#### **Core Earnings/Legacy, Non-Strategic Earnings**

We present Core Earnings/Legacy, Non-Strategic Earnings, which are non-GAAP supplemental financial measures of our performance. Our Core Earnings are generated by the Core Portfolio and Legacy, Non-Strategic Earnings are generated by the Legacy, Non-Strategic Portfolio. We believe that Core Earnings/Legacy, Non-Strategic Earnings provides meaningful information to consider in addition to our net income and cash flow from operating activities determined in accordance with accounting principles generally accepted in the United States ("U.S. GAAP" or "GAAP"). These supplemental financial measures help us to evaluate our performance excluding the effects of certain transactions and U.S. GAAP adjustments that we believe are not necessarily indicative of our current portfolio and operations. For information on the fees we pay our Manager, see Note 11, "Related Party Arrangements" to our consolidated financial statements included in Form 10-K to be filed with the U.S. Securities and Exchange Commission ("SEC"). In addition, we believe that our investors also use Core Earnings/Legacy, Non-Strategic Earnings or a comparable supplemental performance measure to evaluate and compare the performance of us and our peers, and as such, we believe that the disclosure of Core Earnings/Legacy, Non-Strategic Earnings is useful to our investors.

We define Core Earnings/Legacy, Non-Strategic Earnings as U.S. GAAP net income (loss) attributable to our common stockholders (or, without duplication, the owners of the common equity of our direct subsidiaries, such as our operating partnership or "OP") and excluding (i) non-cash equity compensation expense, (ii) the expenses incurred in connection with our formation or other strategic transactions, (iii) the incentive fee, (iv) acquisition costs from successful acquisitions, (v) gains or losses from sales of real estate property and impairment write-downs of depreciable real estate, including unconsolidated joint ventures and preferred equity investments, (vi) depreciation and amortization, (vii) any unrealized gains or losses or other similar non-cash items that are included in net income for the current quarter, regardless of whether such items are included in other comprehensive income or loss, or in net income, (viii) one-time events pursuant to changes in U.S. GAAP and (ix) certain material non-cash income or expense items that in the judgment of management should not be included in Core Earnings/Legacy, Non-Strategic Earnings. For clauses (viii) and (ix), such exclusions shall only be applied after discussions between our Manager and our independent directors and after approval by a majority of our independent directors. U.S. GAAP net income (loss) attributable to our common stockholders and Core Earnings/Legacy, Non-Strategic Earnings include provisions for loan losses.

Prior to the third quarter of 2019, Core Earnings reflected adjustments to U.S. GAAP net income to exclude impairment of real estate and provision for loan losses. During the third quarter of 2019, we revised our definition of Core Earnings to include the provision for loan losses while excluding realized losses of sales of real estate property and impairment write-downs of preferred equity investments. This was approved by a majority of our independent directors. Core Earnings/Legacy, Non-Strategic Earnings for the year ended December 31, 2019 include revisions to the Core Earnings previously disclosed by us in prior periods.

Core Earnings/Legacy, Non-Strategic Earnings does not represent net income or cash generated from operating activities and should not be considered as an alternative to U.S. GAAP net income or an indication of our cash flows from operating activities determined in accordance with U.S. GAAP, a measure of our liquidity, or an indication of funds available to fund our cash needs, including our ability to make cash distributions. In addition, our methodology for calculating Core Earnings/Legacy, Non-Strategic Earnings may differ from methodologies employed by other companies to calculate the same or similar non-GAAP supplemental financial measures, and accordingly, our reported Core Earnings/Legacy, Non-Strategic Earnings may not be comparable to the Core Earnings/Legacy, Non-Strategic Earnings reported by other companies.

# ColonyCredit

## REAL ESTATE

The Company calculates Core Earnings/Legacy, Non-Strategic Earnings per share, which are non-GAAP supplemental financial measures, based on a weighted average number of common shares and operating partnership units (held by members other than the Company or its subsidiaries).

### **Core Portfolio**

We present the Core Portfolio, which consists of four business and reportable segments including senior and mezzanine loans and preferred equity, CRE debt securities, net leased real estate and corporate. Senior and mezzanine loans and preferred equity consists of CRE debt investments including senior mortgage loans, mezzanine loans, and preferred equity interests as well as participations in such loans. The segment also includes acquisition, development and construction loan arrangements accounted for as equity method investments as well as loans and preferred equity interests held through joint ventures with an affiliate of Colony Capital which were deconsolidated as a result of our formation transaction and subsequently treated as equity method investments. CRE debt securities include both investment grade and non-investment grade rated CMBS bonds (including “B-pieces” of CMBS securitization pools or “B-Piece” investments). Net leased real estate includes direct investments in commercial real estate principally composed of long-term leases to tenants on a net lease basis, where such tenants are generally responsible for property operating expenses such as insurance, utilities, maintenance capital expenditures and real estate taxes. Corporate includes corporate-level asset management and other fees, related party and general and administrative expenses related to the Core Portfolio only.

### **Legacy, Non-Strategic Portfolio**

We present the Legacy, Non-Strategic Portfolio, which is a business and reportable segment that consists of direct investments in operating real estate such as multi-tenant office and multifamily residential assets, real estate acquired in settlement of loans, real estate private equity interests and certain retail and other legacy loans originated prior to the combination that created the Company. This segment includes corporate-level asset management and other fees, related party and general and administrative expenses related to the Legacy, Non-strategic Portfolio.

### **Loan-to-Value**

We present loan-to-value which reflects the initial loan amount divided by the as-is appraised value as of the date the loan was originated, or by the current principal amount divided by the appraisal value as of the date of the most recent as-is appraisal. For construction loans, loan-to-value reflects the total commitment amount of the loan divided by the as-completed appraised value, or the total commitment amount of the loan divided by the projected total cost basis.

### **Return on Equity**

We present Return on Equity (“ROE”), which is a supplemental financial measure that represents the initial net investment-level earnings generated by an investment expressed as a percentage of the net equity capital invested. The Company calculates net investment-level earnings for investments in loans and CRE debt securities as the sum of the stated cash coupon income and any non-cash income (such as payment in-kind income and amortization/accretion of purchase discounts and origination, extension and exit fees) less investment-level financing costs. For investments in net leased real estate, the Company calculates net investment-level earnings by subtracting investment-level financing costs from net operating income. Net equity capital invested is calculated by taking the gross initial invested capital less any financing. With respect to certain loans and investment level financing, the Company assumes the one-month USD LIBOR as of December 31, 2019 when calculating ROE. The Company’s ROE calculation relies on a number of assumptions and estimates that are subject to change, some of which are outside the control of the Company. Actual results may differ materially from the Company’s expectations. As such, there can be no assurance that the actual ROE will be equivalent to the estimated ROE. In addition, the Company’s methodology for calculating ROE may differ from methodologies employed by other companies to calculate the same or similar supplemental financial measures, and accordingly, the presented ROE may not be comparable to the ROE reported by other companies.
